Dr. Sanchez commented that there was a question on why historically the enrollment process begins in December and explained that situation would be addressed. 14. Agreement with Pepper Viner Investment Company II, LLC, for the Purchase of the Former Wrightstown Elementary School, with Authorization for the Acting Director for Planning and Student Assignment to Execute the Agreement (continued)

since his arrival in the District and the agreement for sale currently being proposed [details posted with the agenda item on the web]. Dr. Sanchez acknowledged the work of Bryant Nodine and the Planning staff on this project.

Dr. Sanchez presented information on expanding the ESI program [details available via audio and video recordings posted on the web] for retired administrators returning to the District, and as an incentive for teachers coming from other countries and states who are already retired to fill hard-to-fill positions.

In response to Ms. Grijalva’s inquiry concerning the reason the District has two systems for returning retirees, Mr. Awwad responded that the transition is being made to having all retirees be under the ESI contract. Dr. Sanchez commented an additional ESI benefit for a retiree is not having to wait a year after retirement to return to work in the District.

Mr. Awwad introduced Phil Tabasi, a partner at Educational Services Incorporated (ESI), who reviewed the ESI program and presented the proposal using a Power Point presentation [available posted on the web]. His presentation also included details regarding the voluntary Opt-Out choice from the Arizona State Retirement System (ASRS).

Dr. Sanchez commented the District would be piloting the program, first for out of country, overseas, or retired persons later in their careers, to see if it proves beneficial for recruiting and retention, and it would be an option, not a requirement. He stated it would be brought back to the board after results with retired administrators are determined.

Ms. Grijalva stated this item is a Study/Action item, and that she personally felt more comfortable with the post retirement option and had many more questions about the optional retirement

plan. She indicated she wanted employee groups to have the opportunity to provide feedback, specifically about the optional retirement plan.

Ms. Foster asked for clarification concerning whether there would be two contracts and what the use of the word “lease” indicated. Dr. Sanchez responded the word is used to recruit/retain someone to fill a position who may have already retired and does not want to participate in ASRS, and that it is an option, not a requirement. Ms. Foster asked to see the two types of contracts and the differences and to study further.

Mr. Hicks stated his support for options and choices. He indicated he would want the explanation to employees to be clear if they made a decision to opt out. He expressed concern about the reactions of the employee groups.

Ms. Grijalva indicated participation in employee groups is voluntary and a choice and requires annual renewal.

Dr. Stegeman commented he saw a benefit in this option to provide mobility for persons who might not stay in Arizona.

Ms. Grijalva asked Dr. Sanchez to provide information when the item comes back to the Board about pros and cons of participation and non-participation in the retirement system.

16. Enterprise Resource Planning (ERP) Analysis

Dr. Sanchez reviewed the history of the implementation of PeopleSoft and Lawson and the problems associated with the inability of the functions to be compatible. He referred to the recommendations of the Efficiency Audit and acknowledged the expertise of Karla Soto, Damon Jackson and Anna Maiden in implementation of the ERP.

Dr. Sanchez commented on the change in personnel midway through implementation of the purchased software which contributed to problems. Mr. Awwad responded to Ms. Foster’s questions on what contributed to the current situation. Dr. Stegeman commented that he believed the Lawson process was set up for failure from the beginning. Mr. Hicks stated proper project management and collective, consistent leadership are critical to successful implementation of systems.

Karla Soto provided information on the various features available and why Infinite Visions was selected for purchase. Dr. Sanchez commented on the automated tracking of inventory and fixed assets the ERP system will provide and integrate with the purchasing and depreciation schedule. Ms. Soto highlighted the security and business features of the system and the support provided by the vendor. Dr. Sanchez provided additional information regarding the benefits and advantages of purchasing this system. He recommended the purchase of Tyler Infinite Visions system for $1.7m.

Ms. Soto responded to Ms. Grijalva’s question regarding what the purchase price includes, the time frame for implementation, and who bears the responsibility for training. Dr. Sanchez provided additional information concerning optimum project management and training functions. Mr. Awwad responded to Ms. Grijalva’s question concerning ongoing contracts with Lawson and PeopleSoft, and the expected time frame for beginning. Dr. Sanchez indicated the beginning of implementation would be a transition process between the old and new processes.

In response to Dr. Stegeman’s inquiry concerning how many large districts are using this system, Mr. Awwad responded only Mesa and Gilbert are not using Infinite Visions, but that Mesa is looking at it as an option. Dr. Stegeman expressed surprise there was no competitive process, and Mr. Awwad responded on the reasoning. Dr. Sanchez responded that Tyler was an

He encouraged board members to provide any other concerns they might have before voting on the item in June. Brian Lambert presented recommendations for changes being proposed for updating the GSRR [details posted with the agenda item on the web]. Mr. Fish provided additional information regarding training of staff in addition to teachers.

Dr. Sanchez responded to Ms. Grijalva’s inquiry and explained the restructuring of staff was based on the curriculum audit and staff’s being able to use the data dashboard for gathering relevant information. Mr. Fish emphasized the importance of teachers and staff having a complete understanding of the GSRR and Dr. Sanchez elaborated. Ms. Grijalva requested the timeline for training be included in the agenda item when the GSRR is brought back to the Board for approval in June.

Mr. Hicks suggested setting up information sessions for students for their understanding of the GSRR. Dr. Sanchez commented on expectations relayed to students at the beginning of each school year and Mr. Fish commented further.

Dr. Stegeman stated he liked the changes being proposed and appreciated doing training, but stated a well-written document should be clear without a lot of training. Mr. Fish responded.

Ms. Grijalva said board members should present suggestions to the Superintendent.

(During Study of Agenda Item No. 18): Consideration of extending the meeting beyond the 10:00 p.m. curfew in accordance with Governing Board Policy BDAA – Procedures for Governing Board Members was addressed.
