Information:

Study: X

Action:

---

PURPOSE:

To provide the stakeholders (faculty, staff and students) of Tucson Unified School District #1 the opportunity to provide direct and meaningful comments, concerns and ideas regarding any and all proposed Board policies and Administrative Directives that may or may not directly affect the school community and/or district working environment to the Board of Education and Superintendent directly.

---

DESCRIPTION AND JUSTIFICATION:

The concept of the proposed Shared Governance Policy refers to the internal structure, organization and management of the district. The organization of governance is generally composed of the governing board and the Superintendent with a team of administrative staff.

The District does have an online comment forum for comments for proposed/renewed policies that is not fully utilized. Having a shared governance policy will secure better compliance and working relationships between all parties. The concept of shared governance has been around for years with proven acceptance.
