RE: IFB 18-62-C18 Cholla Cooling Tower Replacement

Kevin,

I have reviewed the four bid proposals from: United Technologies Inc., Advanced Mechanical Services, R.E. Lee Mechanical Contracting and Sun Mechanical Contracting. All have met the criteria for bid submittal and design intent. I have also reviewed the Purchasing Abstract – IFB 18-62-C18 and Determination Form from the Procurement Department (attached). In addition, Kelly Wright & Associates (KWA) – Engineer of Record, reviewed the submittals for: responsiveness, scope of work, materials, design intent, etc. and has recommended Sun Mechanical be awarded the contract.

I agree with the above assessments that based on price and completeness of the bid proposal, that Sun Mechanical be awarded the contract to replace the cooling tower at Cholla High School per: IFB 18-62-C18.

Thank you,

Bill Hartigan
