Terms and Conditions

1. Customer acknowledges that Customer is ordering the service(s) described above ("Service") from Zayo Group, LLC, and or its applicable affiliate or subsidiary ("Zayo"). This Service Order shall be governed by and subject to the applicable contract documents between Customer and Zayo referenced above (collectively, the Agreement"). If Customer has not executed an Agreement and/or no Agreement is referenced in this Service Order, then this Service Order shall be governed by the terms and conditions of Zayo's Master Service Agreement and applicable Service Schedule in effect as of the date of this Service Order, incorporated herein by this reference and available upon request. This Service Order is subject to availability and shall only become binding upon acceptance by an authorized Zayo representative. Customer acknowledges that upon Zayo's acceptance, this Service Order shall become a non-cancellable, binding obligation for the purchase of the Service for the Service Term stated above. By signing this Service Order, Customer further acknowledges that it has read and understands the terms and conditions of this Service Order and Customer's signatory represents that he/she is authorized to sign this Service Order on Customer's behalf.

2. All charges for the Service are exclusive of any Taxes and Impositions (as defined below). Except for taxes based on Zayo's net income or for taxes which Customer possesses an exemption certificate, Customer shall be responsible for payment of all applicable taxes that arise in any jurisdiction, including, without limitation, value added, consumption, sales, use, gross receipts, excise, access, bypass, or other taxes, duties, fees, charges or surcharges (including regulatory fees), however designated, imposed or based upon the sale or use of the Services (collectively "Taxes"). Such Taxes will be individually identified on invoices. Customer shall also be responsible for payment of a proportionate share of any property taxes, franchise fees, rights of way fees or charges, license or permit fees incident to the provision of the Services (collectively, "Impositions"). Impositions may be itemized on an invoice and any un-itemized Impositions may be aggregated in the form of a cost recovery surcharge. Customer represents and warrants that the communications traffic to be carried by the Zayo Network shall be jurisdictionally interstate, pursuant to Federal Communications Commission's mixed-use "10% Rule" (47 CFR 36.154, 4 FCC Rcd. 1352), unless Customer provides Zayo written notice otherwise.

3. In support of Zayo meeting the FOC Date, Customer specifically acknowledges that Customer is responsible for all connectivity (and related costs) to Zayo Equipment (i.e. cross-connections between (i) the Zayo demarcation point and Zayo Equipment and (ii) Zayo Equipment and Customer Equipment). In addition, Customer shall be responsible for securing all rights and paying the related costs to connect to the Zayo Equipment, for securing all rights and paying the related costs to access, occupy, and conduct typical telecommunication operations within each respective building (including any necessary rights for Zayo to enter and access each building), and for providing all necessary cable pathways (all of the preceding may include, but not be limited to, construction permits and underlying rights, building access and/or occupancy agreements, building access and/or occupancy fees, lateral fees, riser fees, cross-connects and cross-connect fees, coordination at any third party owned location, and, where applicable, necessary space for Zayo's fiber termination panel and Zayo Equipment). All of the rights above, collectively, shall be referred to as "Customer Requirements" and the related costs and fees, collectively, shall be referred to as "In-Building Charges". Unless this Service Order indicates that Zayo is responsible for In-Building Charges, Customer shall reimburse Zayo in the event that a third party bills Zayo for any In-Building Charges. Customer acknowledges that any delay in Customer providing such Customer Requirements may delay Zayo from completing work at any location. In the event that Customer has not provided the Customer Requirements in time to allow Zayo to complete work at any location on or before the FOC Date, then Zayo may continue with the acceptance procedures to the extent possible and deem the Service delivered and accepted.
