

## Survey Monkey Analysis – Copy of Dodge Dress Code Survey

This was sent to all 6<sup>th</sup> and 7<sup>th</sup> grade families who did not attend Open House.

It was sent 9/6/16 to 9/13/16

Dodge Dress Code Survey

**Q1: Due to the huge variation of color “Teal” and to avoid using academic time to determine if the shirt is in fact the approved teal, it is proposed that only white, dark (forest) green. And light (baby) blue be the official shirt colors. Pleas review the proposed wording for Choices for Top Garments. Top garment color must be only white, light blue or dark green in a golf or polo style pullover, or a full-button shirt with collar. Shirt may be short or long sleeved. Undershirts must be white or the same color as the top. Tops should be sized appropriately, not form-fitting, and long enough to remain tucked in while standing and sitting. “Tucking in” shall not include the “roll” or partial tuck; a full tuck is required. Tops must remain tucked in anytime before, during and after school if within the iron gates. Ladies must keep modesty in mind; undergarments and cleavage must not be visible.**

**Q2: Upon review, students felt that allowing girls to wear any color dress was unfair. It was proposed that dresses follow the same color rules as skirts, pants and shorts. Please review the proposed wording for choices for dresses. Dresses or Jumpers must be solid color in black or tan, or match the dress code top garment color choices in cotton or cotton twill blends. Dresses must have a sleeve or be worn over a dress code compliant top.**

**Q2: According to the current dress code, outerwear is not to be worn in the classroom. Due to some classrooms being too cold for student, the school has tried a few modifications to give students that are cold an opportunity to wear a light jacket or sweater while still maintaining the Dress Code atmosphere. Through trial and error, we have found that too many students are wearing outerwear in the classroom in order to avoid being in dress code. Further, we have found that “hoodie” style jackets and sweaters make monitoring proper dress code and electronic devices difficult. We are proposing that no pullover hoodies be on campus as this has become a chronic discipline problem. It has also been suggested that as we are a college readiness school, we should allow college/university logos as an option providing the jacket is still bale to completely open down the front. Please**

**review the proposed wording for outer wear. Outerwear is discouraged in the classroom; students should consider wearing long-sleeved dress code shirts instead. Should a light jacket or sweater be necessary, the body of the outerwear must be solid colored (one color, no patterns, stripes etc.). Only writing and emblems depicting a college or university are allowed. Hoodie style pullover jackets are not permitted on campus.**
