Subject: TOC Members - Change in Status

Good afternoon! With graduation, we will need the Governing Board to make changes to the status (I think that is the correct terminology) to two of our TOC members:

1. Duncan is currently a student representative on the TOC. He is graduating, but would like to continue serving on the TOC as a community member.
2. Bella is serving as a community member. She is graduating and moving away for school. She will therefore no longer be eligible or available for service, which leaves an opening on the TOC for a community member, that Duncan can now move into.

I am requesting that the governing board vote to change Duncan's status from student representative to community member representative.

Thank you!
