

With this being summer, the Board and I have just one group available to recognize tonight. However, this group of employees is so important to setting the tone for a school that I am glad we get to highlight their work in this way.

The custodial staff, grounds staff, and engineer at Palo Verde High Magnet School are all key participants in the look and feel of the school. This is extremely important for the impression a new student or parent gets when they make their first visit to the campus.

This is the third year in a row that Palo Verde has been awarded the "Cleanest High School" award, which the District's Site Appearance Supervisor selects based on quarterly facility inspections.

The inspections are unannounced, which makes it all the more impressive.

I know the school's leadership is very proud of these staff members and we are excited to recognize their hard work.

Please help us recognize the following people:

CUSTODIANS

Lupita Martinez

Ramon Acuña-Andrews

Ryan Brooks

Catalina Martinez

Hermelinda Rodriguez

Raymond Rodriguez

Gildardo Rodriguez

GROUND

Leo Flores

Joseph Hendrych

ENGINEER

James Crouch

Thank you for putting in that extra effort in order to make the school and district shine.

THAT CONCLUDES MY REPORT FOR TONIGHT.
