Print and Digital: \$275

Product Description:

Empower's Literacy Work Station System is an innovative product designed to maximize differentiated and small group instruction! Empower's Literacy Work Stations give time and energy back to teachers by strengthening and reinforcing students' writing and literacy skills. The engaging activities in our System provide a chance for students to become active participants in their own education as they practice and expand on what they've learned. Each activity within our Work Station System has explicit student-friendly objectives and directions, visual step-by-step procedures and outcomes, and built-in accountability.

Specifics:

- 120 Ready-Made Activities
- Teacher's Handbook with instruction tips, background research, & CCSS aligned student objective checklists
- Blackline Masters

Spanish Primary Math Power Kit (Grades K-2)

Pricing:

Print Only: \$550

Digital Only: \$275

Print and Digital: \$575

Product Description:

The Math Power Kit is a unique system, designed to assist teachers in implementing daily math fluency activities and math centers that are standards based and follow the students' needs. The kit includes fluency games for quick recall, relational thinking, and conceptual understanding of basic fluencies at each grade level as well as center activities to practice and cement mathematical concepts to a deeper level through engaging, fun, and developmentally appropriate games and activities. The activities in the kits range in grade level bands in each kit to maximize students' automaticity of the fluencies that are spiraled and layered throughout the math standards and mathematical practices.

Specifics:

- 360 Ready-Made Activities: 196 Centers & 164 Fluency Activities

- Teacher's Handbook with instruction tips, background research, & CCSS aligned student objective checklists
- Blackline Masters
