MEXICAN AMERICAN STUDENT SERVICES DEPARTMENT (MASSD)
STRATEGIC PLAN SY 2018-19

MASSD MISSION

As the Mexican American Student Services Department Staff, we advocate for students' academic achievement and social well-being. This is achieved by collaboratively working with TUSD schools and families by offering direct and auxiliary services, such as tutoring and mentoring.

PURPOSE OF THE STRATEGIC PLAN

The MASSD is committed to improving the academic achievement and educational outcomes of Mexican American/Latino students (inclusive of students identified as ELLs) through a comprehensive asset-based model approach to student services integrated with culturally responsive practices for growth and advocacy. An asset-based model approach embraces and builds upon students' and their families' strengths, potential, culture/linguistic background, experiences, knowledge, and skills. Students and parents bring "funds of knowledge" from their community and homes to utilize at every level of the educational experience to further a commitment to equity and improved academic achievement in TUSD. The provision of support services for parents, administrators, and teachers in TUSD is foundational to the efficacy of these research-based practices centered on increasing student success in school and enhancing academic achievement. The Strategic Plan is a working document that will guide this work through the reorganization of the MASSD.

STRATEGIC PLAN SY 2018-19**

AREAS OF SUPPORT

The MASSD provides four areas of support services for Mexican American/Latino students (inclusive of ELL students) to meet the Department's Mission:

1. Direct support services to students, in coordination with the classroom teacher, school staff, and site administration. These services are categorized into two areas:
 - a. academic support
 - b. behavioral support
2. District-wide support services to TUSD administrators and teachers to dialogue and jointly modify educational approaches from a deficit model to an asset model¹. This support is inclusive of PD coordinated with the CRPID.
3. Integrated support services to parents, in collaboration with District Departments including Family and Community Engagement.
4. Community support services through outreach and collaboration to develop partnerships as resources for students and families.

The MASSD Strategic Plan is an operational document inclusive of goals and objectives strategically designed to meet the Department's Mission. The first set of goals and objectives address the immediate actions required in the reorganization of the Department (staffing, training, development of support services models, etc.). The second set of goals and objectives address the services provided by MASSD throughout the school year.

¹ Approaching students and families based upon our perceptions of their weaknesses rather than their strengths.(Gorski, 2010)
