## **Proposal Summary**

Tucson Unified School District has a need for a Business Intelligence (BI) and Database (DB) engineer to assume the daily duties associated with district operational and project support. Hye Tech has been engaged to provide the BI & DB resource. The engineer would be versed in BI toolsets as well as Databases. The engineer would be dedicated to the district full time and would take direction from district management for daily tasks, projects, and support.

## **Objectives**

**Hye Tech will meet the following Service objectives:**

- ◆ Provide experienced engineer(s) to be utilized in a staff augmentation role

## **Scope of Work**

**Engineer will be contracted in a staff augmentation role**

- ◆ Assigned tasks by district leadership across
  - Day to day tasks in support of operational issues
  - Project based work to support district initiatives
  - Scheduled as needed as full time dedicated resource
- ◆ Resource to be approved by district leadership
- ◆ Ability to escalate within Hye Tech for higher level support
  - Escalation across technologies for support on complex issues
- ◆ District assigned schedule as FTE
  - No hourly tracking of resource is required
  - Developer to work district schedule as required

## **Fees**

- ◆ See Appendix A

## **Requirements**

**The following assumptions and requirements apply for this Services engagement.**

- ◆ District will provide HyeTech resource all required network and physical access
- ◆ District will provide access to all documentation and technology necessary for consultant to perform the services.

## **Appendix A**

### **Staff Augmentation and Escalation**

<b>Description</b>	<b>Rate</b>
Staff Augmentation	\$150,000.00
Sub Total	\$150,000.00
Travel/Misc Expenses	N/A
Total	\$150,000.00
