Report on AIA Conferences/Regions

Conferences and Regions

CLASSIFICATION AND ALIGNMENT – A Conference is a grouping of member schools, each of whose October 1 enrollment falls within the same size range. A Region is a grouping of schools for purposes of representation within the Conference.

8.1.1 Member School - The October 1 enrollment figure in an odd-numbered year will automatically place the school in a Conference for the next two-year block period. Schools shall be promptly notified of their placement. Conference placement becomes effective for school years beginning with an even-numbered year.

8.1.1.1 The October 1 student enrollment figure for a member school whose student enrollment will be affected by a newly created member school shall be based upon projected student enrollment figures. All schools that submit projected student enrollment figures under this clause in an even-numbered year will automatically be placed in a Conference based on the projected enrollment figure.

Current Year Travel

SCHOOLS	PHOENIX METRO AREA	EASTERN ARIZONA	FAR SOUTH	TOTAL OUT TOWN of at Least 1 Hour
