PURPOSE:

Request for final funding approval from the Governing Board for acceptance of the Intel She Will Connect: Technolochicas LiFT Grant as the award amount is over \$50,000.00 at \$67,500.00.

DESCRIPTION AND JUSTIFICATION:

The Mexican American Student Services Department submitted a grant proposal to LULAC Institute and the Televisa Foundation with the support of the Intel Foundation for the Technolochicas LiFT program for five sites: Pueblo Gardens, Pistor, Gridley, Mansfeld and Safford. This after school program offers STEM education to 25 middle school girls ages 11-14 at each site in computer science through in-person workshops and activities. The purpose of this initiative is to create positive change from within Latino communities by providing hands-on computer science training, more specifically coding, program design, and robotics education to young girls in middle school. TUSD's Mexican American Student Services Department was invited to apply for this opportunity with available funding for this school year at \$13,500.00 per each designated site.

Maria Federico Brummer will be available to answer any questions the Board may have.
