Group A, B: Roberts Tire Sales Inc, and Redburn Tire Co were not considered for recommendation since they did only give bids for 4 of 12 new tires within Group A, and since Group B is the services to tear down and rebuild the TUSD wheels. Group B was discussed during the Pre-Bid conference which TUSD informed vendor was a requirement for the bid, for which these vendors attended. American Tire Distribution was not considered because they did not provide bid for Group B, which is the tear down and rebuild for TUSD wheels, an explained requirement during the Pre-Bid Conference held May 2, 2013, for which they attended.

It is my recommendation to award GCR Tire Center: Group A, B, and E. GCR provided bid for 11 of 12 new tires and best pricing for Group E.

TCI Tire Centers: Group A, and B. TCI provided bid to 12 of 12 new tires (providing multiple choices) and best price for item #12 of new tire category.

For Group C, D Purcell Tire Co. only provided bid to 3 of 4 retread tires and were not the lowest price. American was not considered for recommendation since they did not give bid to items that were listed within the pricing groups.

It is my recommendation to award TCI Tire Centers: Group C, and D. Although TCI Tire Center was not the lowest price for Re-tread Tires it was determined their price was in the best interest of the district. Ken Bolle contacted by Coyote and TCI after TUSD requested both Coyote and TCI to provide samples of the tires as indicated within their proposals. After Ken Bolle conducted his evaluation of the samples he contacted both vendors to provide their estimated tire mileage expectations. Coyote within their proposal did not provide whereas TCI had. TCI confirmed the mileage expectations as they has indicated within their proposal. Coyote was unable to provide TUSD any milegae expectations for tire bid. Ken Bolle provided his written recommendation for the Re-tread Tire part of this proposal be awarded to TCI. His reason is due to budget constraints within the District it would be in the District's best interest to purchase tires wit a know life expectancy and reduce the labor and cost of changing tires for tires that may wear out faster.

Group D was awarded to TCI Tire Center since they were determined to be the best vendor for Group C, and Group D is the tear down and rebuild for TUSD wheels.

 7-1-13

Kevin L. Oster

TUSD Procurement Specialist

Kenneth Bolle Jr.

Auto Mechanic Supervisor

I concur with these recommendations
